

2009 Accessibility Guide

Welcome to Holiday World & Splashin' Safari! We hope this Accessibility Guide will assist you during your visit.

This Accessibility Guide was compiled with the assistance of The Easter Seals Rehabilitation Center of Evansville, Indiana, in an effort to assist Guests in choosing rides during their visit to Holiday World & Splashin' Safari.

All Guests should be aware that, although remote, there is always the possibility that an emergency situation could occur which would necessitate evacuation from a ride or ride area. These occasions are rare; however Guests should be aware of this and exercise good judgment before boarding Holiday World's rides. When choosing rides which include heights, Guests with disabilities must be accompanied by a person capable of helping to evacuate them from heights in case of emergency.

The information in this guide was fully updated before the start of the 2009 season, however the Management at Holiday World & Splashin' Safari reserves the right to adjust any of the restrictions listed here. The Management of Holiday World & Splashin' Safari reserves the right to refuse any Guest access to a ride which Management deems unsafe for the individual. Please observe warnings outlined in this Accessibility Guide.

General Information

Parking: Free parking for Guests with disabilities is available near the Front Gate and at the east end of the Legend Parking Lot on a first come, first served basis. The tram in the Legend Parking lot is handicap accessible but not wheelchair accessible.

Restrooms: Restrooms accessible to Guests who use wheelchairs are available throughout both parks. Family restrooms are available in Splashin' Safari near Jungle Racer and also by Bakuli.

First Aid: The air-conditioned First Aid Station is located at the entrance to Splashin' Safari, which is across from HallowSwings in the Halloween section.

Telephones: Wheelchair-accessible telephones are available near the ticket booth area at the front gate and the entrance to Splashin' Safari.

Air-conditioning: To cool off in air-conditioned comfort during your day, visit Kringle's Kafé or Mrs. Klaus' Kitchen, catch a show at Holiday Theater, or take a ride on Gobbler Getaway (height, weight and physical restrictions apply).

Restaurants & Gift Shops: All Restaurants and Gift Shops in Holiday World & Splashin' Safari are wheelchair accessible. Check a park map for locations.

Theaters: Holiday World has 5 theaters: Santa's Storytime Theater and Holiday Theater in the Christmas section, Hoosier Celebration Theater and Holidog's All-Star Theater in the Fourth of July section, and the High Dive Theater in the Halloween section. Wheelchairs can be accommodated in all theaters. Check a park map for theater locations and show times.

Questions or Comments? Send emails to fun@holidayworld.com or call 1-877-463-2645.

Holiday World Ride Entry Guidelines For Guests with Disabilities

To be issued a Holiday World Ride Boarding Pass, Guests with disabilities should go to Guest Relations at the Front Gate (Guests with non-apparent disabilities should bring a doctor's statement). Each Guest with a disability will need his or her own Ride Boarding Pass, which will include up to three of his/her accompanying family members, caretaker, and/or companions. (If the party exceeds 4 persons total, please see 1b. below.) One or more of the accompanying Guests must be physically able to assist the Guest with a disability on and off the ride, if help is required. Ease of boarding rides varies and must be taken into consideration when deciding which rides to ride. Most rides will require that a Guest with a physical disability be lifted onto and off the ride.

All Holiday World ride-loading areas are accessible to wheelchairs through the exit ramps. Please alert the ride operator when the riding party arrives at the exit platform of any ride.

The Guest with the disability must ride in order for his/her accompanying Guests to take advantage of the special accommodations. If the Guest with the disability chooses not to ride, his/her party must wait in the ride queue.

Rides fall into two categories as it relates to the special accommodations and this boarding procedure. Some rides require a specific boarding time and others do not. Procedures for the two types of attractions follow:

For Rides Requiring a Specific Boarding Time (See list on the Holiday World Ride Boarding Pass)

1a. Any member of the party may take the Ride Boarding Pass to the ride exit and request a boarding time. A boarding time (based on the approximate length of the line at the time of the request) will be assigned and written on the Ride Boarding Pass in the area designated for that ride. The time will be authenticated when it is written on the Ride Boarding Pass.

1b. When the riding party totals more than 4, the majority of the group should get in line in the ride queue. Another member of the party should go to the ride exit and wait there, explaining to the ride operator that part of the group is already standing in line. Guests boarding through the exit should wait until their party is getting close to boarding the ride before coming to the ride exit. Guests are asked to please not block the exit while waiting for Guests in line to get close to boarding.

2. Once the party has been assigned a boarding time on their Ride Boarding Pass, they may ride another ride that does not require a boarding time, play a game, eat a snack, or wait in a comfortable location until it is time to board.

3. When the boarding time arrives, the Guest with a disability and up to three additional Guests may proceed to the ride's exit. The party will ride within the next several ride cycles when directed by the ride operator. (If the boarding time passes, Guests may still ride. You can be "late," but not "early.")

4. Guests with disabilities may not acquire more than one Ride Boarding Time at a time.

5. If you need assistance transferring from a wheelchair to a ride, it is recommended that you visit with a companion. Our ride Hosts and Hostesses will provide information or answer questions; however they are not specially trained to assist you in transferring to and from a ride vehicle and may not be able to do so.

6. Up to 3 additional individuals may accompany the Guest with a disability. Other members of the party are asked to enter the ride in the standard manner through the line.

For Rides Not Requiring a Specific Boarding Time

(All rides other than those listed on the Holiday World Ride Boarding Pass)

1. The Guest with a disability and up to 3 additional Guests may enter the ride through the exit when directed by the ride operator.
2. The party will be asked to wait briefly and will be invited to board after a few cycles of the ride.
3. If you need assistance transferring from a wheelchair to a ride, it is recommended that you visit with a companion. Our ride Hosts and Hostesses will provide information or answer questions; however they are not specially trained to assist you in transferring to and from a ride vehicle and may not be able to do so.
4. Up to three additional individuals may accompany the Guest with a disability and take advantage of the special boarding procedures. Other members of the party are asked to enter the ride in the standard manner through the line. Guests with a disability should inform the ride operator of the additional party members waiting in the queue line.

Ride Safety and Accessibility

The safety of Guests and employees is the #1 Priority at Holiday World & Splashin' Safari. Safety is a shared partnership between the park and our Guests. Guests are asked to review and carefully consider the ride restrictions using good judgment. The Management of Holiday World & Splashin' Safari reserves the right to refuse any Guest access to a ride which Management deems unsafe for the individual. Please observe all caution signs before entering ride queues.

Any Guest who does not fit properly in the ride restraint will not be permitted to ride.

Please also note:

- Due to the design of certain rides, large Guests (in terms of height and/or weight) or Guests of unusual body proportions may be unable to ride all attractions.
- Hearing devices and other electronic devices may be damaged by water on water rides. Please take necessary precautions to protect these items. Due to the fact that many rides vibrate, Guests should take necessary precautions to protect hearing devices and eyeglasses on all rides.
- For the safety of Guests nearby, those wearing prosthetic and orthotic devices may be unable to ride due to the inability to be properly restrained during the ride or attraction. Guests must securely lock or remove any prostheses before boarding to ensure everyone's safety. Please be advised if a Guest has two artificial legs and they are removed for safety reasons height restrictions could restrain the Guest from riding.
- Unless otherwise indicated, one Guest may not ride on another Guest's lap.

State of Indiana Patron Responsibility

Indiana Administrative Code Title 685 Section 1-2-4 requires the following of amusement device patrons:

- Patrons have a duty to not participate in or on any amusement ride, device or attraction when under the influence of drugs or alcohol.
- Patrons have a duty to properly use all ride or device safety equipment provided.

Fun and Safety Symbols

The Fun and Safety Symbols shown at the bottom of each page have been designed to assist Guests in selecting rides best suited to their physical condition. These symbols are posted next to the entrances of rides and indicate certain physical conditions that may be aggravated or affected by the ride.

Christmas Section

Rudolph's Reindeer Ranch

Blitzen's Airplanes - E (please note symbols below) - This is a low-speed, circular-motion, gentle ride intended for young children.

Ride Access: Please wait outside the Ride Exit Gate for an operator to assist you.

Height Requirement: Guests must be less than 54" tall to ride.

Physical Requirement: Child must be able to sit up and hold on.

Comet's Rockets - E (please note symbols below) - This ride rises to approximately 7 feet in a low-speed, circular motion; gentle ride intended for young children.

Ride Access: Please wait outside the Ride Exit Gate for an operator to assist you.

Height Requirement: Guests must be less than 54" tall to ride.

Physical Requirement: Child must be able to sit up and hold on.

Dancer's Thunder Bumpers Junior - E (please note symbols below) - This is a children's water ride. Boat may spin in circles if not steered.

Ride Access: Please wait outside the Ride Exit Gate for an operator to assist you.

Height Requirement: Guests must be less than 54" tall to ride.

Physical Requirement: Child must be able to sit up, hold on and turn the steering wheel. No seat belts.

Dasher's Seahorses - E (please note symbols below) - This is a low-speed, circular-motion, gentle ride intended for young children.

Ride Access: Please wait outside the Ride Exit Gate for an operator to assist you.

Height Requirement: Guests must be less than 54" tall to ride.

Physical Requirement: Child must be able to sit up without back support and hold on.

Reindeer Games - A,B,C,D,E (please note symbols below) - This is small version of the Liberty Launch "tower" ride with individual seats. Strong up and down movement.

Ride Access: Please wait outside the Ride Exit Gate for an operator to assist you.

Height/Weight Requirement: Guests must be at least 42" tall to ride. Maximum weight limit is 165 pounds per seat.

Physical Requirement: Child must be able to sit up and hold on.

Prancer's Merry-Go-Round - E (please note symbols below) - This is a low-speed, circular-motion, gentle ride intended for young children. No bench seats.

Ride Access: Please wait outside the Ride Exit Gate for an operator to assist you.

Height Requirement: Guests must be less than 54" tall to ride.

Physical Requirement: Child must be able to sit up without back support and hold on. An adult may stand by and assist holding the child.

A

B

C

D

E

Halloween Section

The Raven - A,B,C,D,E (please note symbols below) - This is a wooden roller coaster that provides steep drops, twists and turns, with strong forces from all directions. There is a brief trip through a dark tunnel. Guests with disabilities must be accompanied by a person capable of helping to evacuate them from heights in case of emergency.

Ride Access: Please wait outside the Ride Exit Gate for an operator to assist you.

Height Requirement: Guests must be at least 48" tall to ride.

Physical Requirement: Guests must be able to sit upright, hold on, and be restrained by a seat belt and lap bar.

The Legend - A,B,C,D,E (please note symbols below) - This is a wooden roller coaster that provides a ride similar to The Raven (see above), but is longer, taller, faster, and includes 4 tunnels plus a double helix. Guests with disabilities must be accompanied by a person capable of helping to evacuate them from heights in case of emergency.

Ride Access: Please wait outside the Ride Exit Gate for an operator to assist you.

Height Requirement: Guests must be at least 48" tall to ride.

Physical Requirement: Guests must be able to sit upright, hold on, and be restrained by a seat belt and lap bar.

Frightful Falls - A,B,C,D,E (please note symbols below) - This is a log flume water ride. Guests should be prepared for strong backward forces, side-to-side forces, and splashing water as log flume descends final ramp. Ride includes a trip through a dark tunnel. Guests with disabilities must be accompanied by a person capable of helping evacuate them from heights in case of emergency.

Ride Access: Please wait at the Ride Exit for an operator to assist you.

Height Requirement: Guests must be at least 36" tall to ride; children 36"-42" tall must ride with someone 18 or older.

Physical Requirement: Guests must be able to enter and exit the 4-passenger moving log, sit upright, and hold on. No seat belts.

HallowSwings - A,B,C,D,E (please note symbols below) - This ride takes riders in a circular, tilting motion on individual swing seats. Guests should be prepared for circular motion and heights up to 45 feet.

Ride Access: Please wait outside the Ride Exit Gate for an operator to assist you.

Height Requirement: Guests must be at least 48" tall to ride.

Physical Requirement: Guests must be able to sit up unsupported, hold on, and be restrained by a safety bar.

Scarecrow Scrambler - A,B,C,D,E (please note symbols below) - Riders should be prepared for strong side-to-side forces and circular movement.

Ride Access: Please wait outside the Ride Exit Gate for an operator to assist you.

Height Requirement: Guests must be at least 36" tall to ride; children 36"-42" tall must ride with someone 18 or older.

Physical Requirement: Guests must be able to sit up, hold on, and be restrained by a seat belt and lap bar. Smaller Guests should sit on the inner (left) side of the seats.

A

B

C

D

E

Fourth of July Section

Liberty Launch - A,B,C,D,E (please note symbols below) - This is an 8-story "tower" ride with individual seats. Extreme up and down movement.

Ride Access: Please wait outside the Ride Exit Gate for an operator to assist you.

Height Requirement: Guests must be at least 48" tall to ride.

Physical Requirement: Guests must be able to sit up, hold on, and be restrained by an overhead lap bar.

Lewis & Clark Trail - A,D,E (please note symbols below) - This is a gas-powered antique car ride. Guests experience some front-to-back and back-to-front forces.

Ride Access: Please wait at the Ride Exit for an operator to assist you.

Height/Weight Requirement: If the driver is less than 42" tall, the front seat passenger must be tall enough to help steer and push the foot pedal without either rider standing. Maximum combined weight: 800 pounds for 4-seat cars, 400 pounds for 2-seat cars.

Physical Requirement: Small children must be held by an adult or be similarly restrained to avoid bumping or falling out. Guests with disabilities must remain seated and have an accompanying Guest in the car with them. No seat belts.

Paul Revere's Midnight Ride - A,B,C,D,E (please note symbols below) - This is a "spider ride." Guests should be prepared for strong side-to-side, up-and-down, and circular motions.

Ride Access: Please wait outside the Ride Exit Gate for an operator to assist you.

Height/Weight Requirement: Guests must be at least 36" tall to ride; children 36"-42" tall must ride with someone 18 years or older. Maximum weight: 400 pounds per car.

Physical Requirement: Guests must be able to be restrained by a lap bar, sit upright, and hold on.

Rough Riders Bumper Cars - A,B,C,D,E (please note symbols below) - This ride provides strong front-to-back and side-to-side motions and frequent bumps from the side, front, and back.

Ride Access: Please wait outside the Ride Exit Gate for an operator to assist you.

Height Requirement: Guests must be at least 42" tall to ride; children 42"-48" tall must ride with someone 18 years or older.

Physical Requirement: To drive cars Guests must be able to operate the car properly, sit upright and be restrained by a seat belt. As a passenger Guests must be able to sit upright and be restrained by a seat belt.

Star Spangled Carousel - A,D,E (please note symbols below) - This is a carousel ride where animals move up and down and in a circular motion. Chariots move in a circular motion.

Ride Access: Please wait outside the Ride Exit Gate for an operator to assist you.

Height/Weight Requirement: If the Guest is less than 42" someone 18 years or older must stand beside the animal to assist the child. Maximum weight limits: 200 pounds per animal; combined weight per chariot 680 pounds. Guests, 18 years or older, may stand next to a Guest with a disability.

Physical Requirement: Guests must be able to sit upright without back support and be able to hold on.

A

B

C

D

E

The Freedom Train - E (please note symbols below) - This is a child-sized replica of a passenger train. Guests may sit on bench seats in the open car. Small children (and adults who fit) may ride inside the enclosed car.

Ride Access: Please wait outside the Ride Exit Gate for an operator to assist you.

Height Requirement: No height requirement.

Physical Requirement: Children must be able to sit up or be held by accompanying Guests.

Eagle's Flight - A,B,C,D,E (please note symbols below) - This is a series of 2-seater "eagles," suspended from cables which elevate Guests, taking them on a circular ride. Guests may move "eagle" side to side manually. Seat belt extenders available.

Ride Access: Please wait outside the Ride Exit Gate for an operator to assist you.

Height/Weight Requirement: Guests must be at least 36" tall to ride; children 36"-42" tall must ride with someone 18 years or older. Maximum combined weight: 400 pounds per bird.

Physical Requirement: Guests must be able to sit up and hold on. Guests with disabilities and small children should ride on the left side with an accompanying Guest.

Revolution - A,B,C,D,E (please note symbols below) - This is a rotor-circular ride that rises up, tilts, and goes in a circular motion.

Ride Access: Please wait outside the Ride Exit Gate for an operator to assist you.

Height Requirement: Guests must be at least 42" tall to ride.

Physical Requirement: Guests must be able to stand up unsupported, hold on, and be prepared for circular motion and heights.

Raging Rapids - A,B,C,D,E (please note symbols below) - This is a river rapids ride with strong front-to-back and side-to-side forces, plus rapidly changing turbulence. Guests may be assigned specific seats on the boat, as weight must be balanced for safety. Most Guests become soaked by water from the side and overhead; ride includes a trip through a dark tunnel. Guests wearing glasses should either wear a strap or store glasses safely before boarding. Guests with disabilities must be accompanied by a person capable of helping to evacuate them in case of emergency.

Ride Access: Please wait at the Ride Exit for an operator to assist you.

Height/Weight Requirement: Guests must be at least 36" tall to ride; children 36"-42" tall must ride with someone 18 years or older. The total weight of the riders must not exceed 1,360 pounds.

Physical Requirement: Guests must be able to enter and exit the 8-passenger moving boat, be restrained by a seat belt, sit upright, and hold on.

Indian River - E (please note symbols below) - This children's ride provides canoes which seat 1 to 4 children, depending on their combined weight.

Ride Access: Please wait at the Ride Exit for an operator to assist you.

Height/Weight Requirement: Guests must be under 54" tall to ride. Maximum combined weight: 200 pounds per canoe.

Physical Requirement: Guests must be able to sit up independently and hold on. No seat belts.

Salmon Run - A,E (please note symbols below) - This is a children's ride with individual fish-shaped cars which go up and down in a circular motion.

Ride Access: Please wait outside the Ride Exit Gate for an operator to assist you.

Height Requirement: Guests must be under 54" tall to ride.

Physical Requirement: Guests must be able to sit up, hold on and be restrained by a seat belt.

A

B

C

D

E

The Howler - A,B,C,D,E (please note symbols below) - This ride is a family-sized roller coaster with small dips and turns. Guests with disabilities must be accompanied by a person capable of helping to evacuate them from heights in case of emergency.

Ride Access: Please wait outside the Ride Exit Gate for an operator to assist you.

Height Requirement: Guests must be at least 36" tall to ride; children 36"-42" tall must ride with someone 18 years or older.

Physical Requirement: Guests must be able to sit upright, hold on, and be restrained by a lap bar.

Doggone Trail - A,B,C,D,E (please note symbols below) - This is a jeep ride with some front-to-back and back-to-front forces. Seat belt extenders available.

Ride Access: Please wait outside the Ride Exit Gate for an operator to assist you.

Height Requirement: Guests under 42" tall must ride with someone 18 years or older.

Physical Requirement: Guests must be able to sit upright and be restrained by a seat belt. Guests with disabilities must remain seated and have an accompanying Guest in the car with them.

Holidog's Treehouse - A,D,E (please note symbols below) - This is a three-story interactive play structure. Throughout the treehouse there are ladders, web climbs, rock-climbing walls, and slides. Parents are encouraged to accompany their children and provide assistance. Shoes are permitted on this attraction with the exception of the metal slides.

Ride Access: There is not a specific entrance or exit.

Height Requirement: None.

Physical Requirement: Guests must be able to climb or pull themselves up along the various passageways and go on slides alone.

Just for Pups - This is a toddler's version of Holidog's Treehouse, with two small structures, two slides, plus several interactive toys.

Ride Access: There is not a specific entrance or exit.

Height Requirement: None.

Physical Requirement: None.

Magic Waters - This is an interactive water "sprayground" with a series of water geysers shooting up out of the ground. Children and adults are invited to take off their shoes and play in the water. Children in diapers must wear swim diapers.

Ride Access: There is not a specific entrance or exit.

Height Requirement: None.

Physical Requirement: None.

Thanksgiving Section

The Voyage - A,B,C,D,E (please note symbols below) - This wooden roller coaster features 3 drops over 100 feet, twists and turns, with strong forces from all directions. There are 8 dark moments in underground tunnels. Guests with disabilities must be accompanied by a person capable of helping to evacuate them from heights in case of emergency.

Ride Access: Please wait outside the Ride Exit Gate for an operator to assist you.

Height Requirement: Guests must be at least 48" tall to ride.

Physical Requirement: Guests must be able to sit upright, hold on, and be restrained by a seat belt and lap bar.

A

B

C

D

E

Gobbler Getaway - D,E (please note symbols below) - This is an interactive “dark ride” with slow-moving, four-passenger cars. The three-minute ride features lighting effects including black light, strobe lights, and mirror-ball projections. Several spice scents will also be experienced. Guests with disabilities must have an accompanying Guest in the car with them. Accompanying Guest must be capable of helping to evacuate them in case of emergency.

Ride Access: Please wait outside the Ride Exit Gate for an operator to assist you.

Height/Weight Requirement: Guests under 48” tall must ride with someone 18 years or older. Maximum combined weight: 880 pounds per four-guest car.

Physical Requirement: Guests must be able to sit upright and be restrained by a lap bar.

Turkey Whirl - A,B,C,D,E (please note symbols below) - Riders should be prepared for strong side-to-side forces and circular movement. Guests with disabilities must have an accompanying Guest in the car with them. The accompanying Guest must be capable of helping to evacuate them in case of emergency.

Ride Access: Please wait outside the Ride Exit Gate for an operator to assist you.

Height/Weight Requirement: Guests must be at least 36” tall to ride; children 36”-48” tall must ride with someone 18 years or older. Maximum combined weight: 800 pounds per four-guest car.

Physical Requirement: Guests must be able to sit upright, hold on, and be restrained by a lap bar.

Pilgrims Plunge - A,B,C,D,E (please note symbols below) - This is a shoot-the-chute ride with an open-air elevator carrying riders to a height of 135 feet. Guests should be prepared for strong backward forces, side to side forces, and drenching water as boats descend the 131-foot drop. Ride includes a dark tunnel. Guests with disabilities must be accompanied by a person capable of helping to evacuate them from heights in case of emergency.

Ride Access: Please wait outside the Ride Exit Gate for an operator to assist you.

Height/Weight Requirement: Guests must be at least 47” tall barefoot to ride; or at least 48” tall with shoes on to ride.

Physical Requirement: Guests must be able to sit upright, hold on, and be restrained by an overhead lapbar.

Splashin’ Safari Water Park

The water attractions at Splashin’ Safari are staffed by International Pool & Waterpark Certified Lifeguards. Please do not hesitate to ask them questions or seek their assistance.

To participate at Splashin’ Safari, swimwear or shorts and shirts may be worn and must be modest in design. No revealing or thong swimsuits allowed. Children in diapers must wear swim diapers. While in the water, Guests who are incontinent must wear swim diapers.

Lif jackets are available at no charge. Smaller sizes are for children up to 90 pounds. The adult medium life vest fits a chest measurement of 37”-40” and the adult large life vest fits a chest measurement of 40”-43”. Bins with lif jackets are located at both The Wave and Bahari Wave.

The Ride Boarding Pass does not apply to the water slides, since the “exit” is the bottom of the slide. There are a number of water attractions—Jungle Jets, Crocodile Isle, The Wave, Bahari Wave Pool, Bahari River, Monsoon Lagoon, Kima Bay, Congo River—which require little or no wait.

A

B

C

D

E

Kima Bay - A,B,C,D,E (please note symbols below) - This is an interactive family waterplay and slide complex, including a variety of slides and other water activities. There is no specific entrance or exit.

Height/Age/Weight Requirement: Children under six must be accompanied by an adult. Guests must be at least 36” tall to ride smaller slides (under 8 feet tall) and Guests must be at least 42” tall to ride all taller (slides over 8 feet). Maximum weight per slide may not exceed 300 pounds.

Physical Requirement: Guests must be able to climb the structure to slides and sit upright to go down slides.

Bakuli - A,B,C,D,E (please note symbols below) - This multi-person water slide starts seven stories up with a dark tunnel including three sharp and sudden curves. Next a steep “the bottom falls out” drop takes riders into a huge bowl, ending with a tunnel dropping the inner tubes into a shallow splash pool.

Ride Access: The entrance is several stories of stairs; the slide itself serves as the exit.

Height/Weight Requirement: Guests must be 42” tall to ride. Guests 42”- 48” tall must ride with an adult. Riders' maximum total weight must not exceed 600 pounds per 4-passenger inner tube; maximum 4 riders per inner tube.

Physical Requirement: Guests must be able to climb the stairs of the slide tower, sit upright and hold onto handles of four-passenger inner tubes.

Bahari Wave - A,B,C,D,E (please note symbols below) - This is a wave pool with a depth varying from 0 to 6 feet; maximum wave height is 4 feet. There is no specific entrance or exit.

Height Requirement: None.

Physical Requirement: It is recommended that Guests who are unable to swim and upright themselves should not swim in Bahari Wave. Guests in a wheelchair may ask a lifeguard for an inner tube to use while in Bahari Wave.

Bahari River - A (please note symbols below) - This is a river where Guests ride on inner tubes if they choose to use them. Some sections have strong currents and waterfalls which may cause Guests with disabilities to have difficulty returning to an upright position. Zero depth entry. Water depth: 28”.

Ride Access: Enter via the ride exit.

Height Requirement: None.

Physical Requirement: Guests must be able to sit or stand in an inner tube if they choose to use them. An accompanying Guest may walk around the river or ride in an inner tube to assist the Guest with the disability.

Zinga - A,B,C,D,E (please note symbols below) - This multi-person water slide starts eight stories up with a dark tunnel ride and finishes with an extreme “half-pipe” back-and-forth action, ending in a shallow run-out pool.

Ride Access: The entrance is several stories of stairs and the slide itself serves as the exit.

Height/Weight Requirement: Guests must be at least 42” tall to ride. Guests 42”- 48” tall must ride with an adult. Riders' maximum combined weight must not exceed 600 pounds per 4-passenger inner tube; maximum 4 riders per inner tube.

Physical Requirement: Guests must be able to climb the stairs of the slide tower, sit upright and hold onto handles of four-passenger inner tubes.

A

B

C

D

E

Jungle Racer - A,B,C,D,E (please note symbols below) - This is a five-story water-slide complex, with 10 racing water slides.

Ride Access: The entrance is several stories of stairs; the slides themselves serve as exits.

Height Requirement: Guests must be at least 42" tall to ride.

Physical Requirement: Guests must be able to climb the stairs of the slide tower, position themselves head-first, stomach-down, on a single-person toboggan-like mat, and race down a steep slide into a shallow run-out. Guests must then walk out of the remaining run out, carrying the mat.

Jungle Jets - This is a large interactive water "sprayground" with a number of water play elements.

Ride Access: Enter via the ride entrance/exit.

Height Requirement: None.

Physical Requirement: None.

Watubee - A,B,C,D,E (please note symbols below) - This is a six-story white-water raft ride featuring non-stop twists and turns along the sloping 625-foot slide. Each raft holds 4-5 Guests. All Guests must sit flat, facing the center of the raft.

Ride Access: The entrance is several stories of stairs and the slide itself serves as the exit.

Height/Weight Requirement: Guests must be at least 36" tall to ride. Children 36"-48" tall must ride with an adult. Riders' combined weight must not exceed 800 pounds per raft; maximum 4 adults per raft.

Physical Requirement: Guests must be able to climb the stairs of the slide tower, sit up and hold onto raft handles, and upright themselves in a strong current.

ZOOMbabwe - A,B,C,D,E (please note symbols below) - This ten-story ride provides a ride similar to Watubee, but it is taller, faster, more extreme, and entirely in the dark.

Ride Access: The entrance is several stories of stairs and the slide itself serves as the exit.

Height/Weight Requirement: Guests must be at least 36" tall to ride. Guests 36"-48" tall must ride with an adult. Riders' maximum combined weight must not exceed 600 pounds per raft; maximum 4 riders per raft.

Physical Requirement: Guests must be able to climb the stairs of the slide tower, sit upright and hold onto raft handles, and upright themselves in a strong current.

Otorongo - A,B,C,D,E (please note symbols below) - This is a water slide complex of 3 enclosed water slides. These slides are very fast and very dark. Double inner tubes are provided, allowing 2 Guests to ride in the same tube; however one Guest may not sit on another Guest's lap. If the Guest will need assistance at the bottom of the slide (in splash pool), notify attendant at the top of the slide before going down.

Ride Access: The entrance is mainly stairs and the slides themselves serve as exits.

Height Requirement: Guests must be at least 42" tall to ride; children 42"-48" tall must ride with an adult (at least 5"6" tall).

Physical Requirement: Guests must be able to climb stairs to the top of the slide tower, carry a double inner tube, sit alone in the inner tube and hold the handles. Double inner tubes make it possible for Guests needing assistance by accompanying Guests to help. Guests must be able to upright themselves in 4 feet of water.

A

B

C

D

E

Crocodile Isle - A (please note symbols below) - This is a children's activity area, with 2 shallow pools and a variety of children's water slides and other water features. If the Guest will need assistance at the bottom of the slide (in splash pool), notify attendant at the top of the slide before going down.

Average water depth: 12". There is no specific entrance or exit.

Height Requirement: Guests must be under 54" tall to play.

Physical Requirement: Guests must be able to sit upright in pools and go down slides alone.

Monsoon Lagoon - A,B,C,D,E (please note symbols below) - This is an interactive family waterplay and slide complex, including a shallow pool and a variety of slides and other water activities.

Average water depth is 18". There is no specific entrance or exit.

Height Requirement: None.

Physical Requirement: Guests must be able to sit upright in pool.

The Wave - A,B,C,D,E (please note symbols below) - This is a wave pool with a depth varying from 0 to 6 feet, with a maximum wave height of 4 feet. There is no specific entrance or exit.

Height Requirement: No height requirement.

Physical Requirement: It is recommended that Guests who are unable to swim and upright themselves should not swim in The Wave. Milder waves, with a pool depth of 2 feet or less, are available in the adjacent Butterfly Bay. Guests in a wheelchair may ask a lifeguard for an inner tube to use while in The Wave.

Congo River - A (please note symbols below) - This is a river where Guests ride on inner tubes if they choose to use them. Some sections have strong currents and waterfalls which may cause Guests with disabilities to have difficulty returning to an upright position. Water depth: 28".

Ride Access: Enter via the ride exit.

Height Requirement: None.

Physical Requirement: Guests must be able to sit or stand in an inner tube if they choose to use them. An accompanying Guest may walk around the river in an inner tube and assist the Guest with the disability.

AmaZOOM - A,B,C,D,E (please note symbols below) - This is an enclosed water slide. If Guests need assistance at bottom of slide (in splash pool), notify attendant at top of slide before going down.

Ride Access: The entrance is mainly stairs and the slide itself serves as the exit.

Height Requirement: Guests must be at least 42" tall to ride.

Physical Requirement: Guests must be able to sit alone in an inner tube and hold handles. Guests must be able to upright themselves in 3-1/2 feet of water.

Bamboo Chute - A,B,C,D,E (please note symbols below) - This is an open and closed water slide. Double tubes are permitted, allowing two Guests to ride in the same tube; however one Guest may not sit on another's lap. All rules for riding the AmaZOOM water slide also apply.

Ride Access: The entrance is mainly stairs and the slide itself serves as the exit.

Height Requirement: Guests must be at least 42" tall to ride.

Physical Requirement: Guests must be able to sit in a single inner tube unattended and hold handles or able to sit upright alone holding handles with an accompanying Guest in the double inner tube to assist them. Guests must be able to upright themselves in 3-1/2 feet of water.
