Introduction

Welcome to Holiday World & Splashin' Safari! We hope this guide will assist you in planning for and during your visit.

This Guide was compiled in cooperation with the Easter Seals Rehabilitation Center of Evansville, Indiana, to assist Guests in choosing rides and slides to enjoy during their visit. Holiday World & Splashin' Safari's Ride Admission Policy is based on our ride manufacturers' recommendations plus evaluation of each attraction using our experience with and knowledge of the ride in both normal and emergency operating conditions. Our prime consideration is the ability of each person to endure the dynamics of a ride without risk of injury to that person or other riders.

All Guests should be aware that, although remote, there is always the possibility that a ride evacuation could occur due to an unplanned shutdown, inclement weather conditions, or a power interruption. If a ride evacuation is required, Guests may need to negotiate stairs from the highest point of the ride and down steeply inclined walkways.

Guests requiring assistance during a ride evacuation may be escorted last in order to expedite the evacuation process. While these occasions are rare, Guests should be aware of this possibility and exercise good judgment before boarding rides and slides. Please inquire about specific procedures prior to boarding a particular ride. The roller coasters, Frightful Falls, Raging Rapids and rides that leave the ground are more likely to be evacuated during a ride shutdown. Guests with limited mobility should be accompanied by a person capable of helping to evacuate them during a ride shutdown if assistance is requested by Management.

Please observe all warnings outlined in this Guide. The information in this Guide was fully updated before the start of the 2016 season. Management at Holiday World & Splashin' Safari reserves the right to adjust any of the restrictions listed in this Guide.

The Management of Holiday World & Splashin' Safari reserves the right to deny Guest access to a ride which Management deems unsafe for the individual. Any Guest who does not fit properly in the ride restraint will not be permitted to ride.

General Information

Air-Conditioning—To cool off in air-conditioned comfort during your day, visit Kringle's Kafé, Plymouth Rock Kafé or Mrs. Klaus' Kitchen; another option is take a ride on Gobbler Getaway (height, weight, and physical restrictions apply on this ride) in Holiday World. In Splashin' Safari, air-conditioned dining is available near ZOOMbabwe Grill.

American Sign Language Interpretation Services—Complimentary sign language interpretation services may be available. Arrangements for sign language interpreters should be made at least two weeks prior to your visit. Please contact Guest Relations at 812-937-4401 or 877-463-2645 or email fun@holidayworld.com to make arrangements.

Complimentary Water & Soft Drinks—Complimentary and unlimited water and soft drinks are available at any restaurant or Pepsi Oasis location in the park.

Family Restrooms—Family Restrooms are located near Thunderbird, between Bahari Wave and Bahari River, between Jungle Jake’s and Safari Sam’s SplashLand, between Safari Pizza and Locker Rental, by Hyena Falls, and in the Legend Parking Lot. Please check a park map for other restroom locations.

First Aid—An air-conditioned First Aid Station is accessible from both parks and is centrally located between the Thanksgiving bridge and the Splashin’ Safari lockers. Please use this location if a flat surface is needed to help change diaper-dependent Guests.

Obtaining a Ride Boarding Pass—Ride Boarding Passes are issued for Guests with limited mobility and other unique circumstances at In-Park Services near the Front Gate and Splashin’ Safari Guest Relations (during water park operating hours).

Parking—Free parking for Guests with disabilities is available near the Front Gate in the Raven Lot and at the east end of the Legend Parking Lot on a first-come, first-served basis.

Restaurants—Wheelchair-accessible seating is available at each restaurant. Please check a park map for locations. Please be aware that our venues offer cafeteria-style service and Host and Hostesses are available for assistance if needed. Service animals are permitted in all restaurants.

Retail—All gift shops provide accessibility. Please ask a Host/Hostess for assistance in obtaining any hard-to-reach items.

Ride Access—In Holiday World, most accessible entrances are located at the ride exit; an exception is Thunderbird, which has an accessible queue. Holidog’s Treehouse, Just for Pups, and Magic Waters do not have specific entry or exit points. Guests needing special ride boarding arrangements due to physical limitations should request a Ride Boarding Pass at In-Park Services or Splashin’ Safari Guest Relations. Please do not hesitate to hold up your Ride Boarding Pass when you arrive at the ride’s exit gate (or designated accessible entrance) to alert the Ride Operator.

Segways® & Golf Cars—Due to varying terrain and pathway configurations as well as crowds that include small children and strollers, we regret that we cannot permit the use of golf cars or two-wheeled, self-balancing electric vehicles, such as Segways, in Holiday World & Splashin’ Safari. Guests’ personal wheelchairs and Electric Convenience Vehicles (ECVs) are permitted and are available for rent on a first-come, first-served basis at St. Nick’s Rentals in the Christmas section.

Special Dietary Needs—Guests with special dietary needs and Guests with infants will be accommodated. Please see a Security Officer at the Front Gate for assistance. Several of the park’s restaurants offer allergen-friendly and gluten-free meals and snacks. See HolidayWorld.com/Food for details

Holiday World Ride Entry Guidelines for Ride Boarding Passes

Ride Boarding Passes are available for Guests with limited mobility who cannot otherwise navigate queues and for Guests with other unique circumstances. To be issued a Ride Boarding Pass, Guests should go to In-Park Services near the Front Gate in Holiday World or Splashin’ Safari Guest Relations (during water park operating hours.) Each Guest who requires an accommodation will need his or her own Ride Boarding Pass. Each pass will accommodate up to three accompanying family members, caretakers, and/or companions. One or more of the accompanying Guests should be physically able to assist the Guest with transferring on and off the ride if help is required. Ease of boarding rides varies and must be taken into consideration when deciding which rides to ride. Most rides will require that a Guest with a physical disability be lifted on and off the ride.

The Guest to whom the Boarding Pass was issued must ride in order for the accompanying Guests to take advantage of the Ride Boarding Pass. If the Guest who was issued the pass chooses not to ride, his/her party must wait in the ride line.

We recommend that Guests needing assistance transferring from a wheelchair to a ride visit with a companion. Our Ride Operators will provide information and answer questions, however they are not specially trained to assist in transferring a Guest to and from a ride vehicle and may not be able to do so.

If Your Party Exceeds Four Riders

When the riding party totals more than four, the majority of the group should get in the ride line. Another member of the party should go to the ride exit with the Ride Boarding Pass and explain to the Ride Operator that part of the group is already standing in line. Guests boarding through the exit should wait until their party is getting close to boarding the ride before coming to the ride exit. Guests are asked to please not block the exit while waiting.

Rides Requiring a Specific Boarding Time (see list on Ride Boarding Pass)

1. Any member of the party may take the Ride Boarding Pass to the ride exit and request a boarding time. A boarding time (based on the approximate length of the line at the time of the request) will be assigned and written on the Pass. The time will be authenticated when it is written on the Ride Boarding Pass.
2. Once assigned a boarding time, the party may leave the ride and return when it is time to board.
3. When the boarding time arrives, the Guest who was issued the pass plus up to three additional Guests may proceed to the ride's exit. The party will ride when directed by the Ride Operator. (If the boarding time passes, Guests may still ride; you can arrive late but not early.)
4. Guests may only receive a single boarding time at any given time.

For Rides Not Requiring a Specific Boarding Time (those not listed on the Ride Boarding Pass)

1. The Guest who was issued the pass plus up to three additional Guests may enter the ride through the exit when directed by the Ride Operator.
2. The party will be asked to wait up to 15 minutes and will be invited to board after a few cycles.

Ride Safety and Accessibility

The safety of Guests and Employees is the #1 priority at Holiday World & Splashin' Safari. Safety is a shared partnership between the park and our Guests. The Management of Holiday World & Splashin' Safari reserves the right to refuse any Guest access to a ride which Management deems unsafe for the individual. Please carefully review and consider the requirements and restrictions of our attractions (listed in this Guide and at our attractions) to determine if you or members of your party can safely participate.

Please also note:

- Theme park and water park attractions expose riders to forces, speeds and other intense elements that may cause distress or injury to persons with pre-existing health conditions. Guests should consider these elements when determining the suitability for all riders.
- All riders must be in good health to ride. We recommend that Guests with any medical condition that may be affected by a ride carefully heed all warning signs at each ride entrance.
- Guests unable to properly use seating and/or safety restraints or understand and follow verbal and/or written safety procedures must not ride. Guests must also be able to demonstrate a

- willingness and ability to comply with verbal and written ride requirements
- In order to experience all rides, Guests must be able to maintain the proper riding position throughout the ride including the ability to sit upright and maintain control of upper torso, head and neck. Guests must generally be able to use the restraint device properly, remain seated upright at all times and hold on (or grip/brace) when required. Where applicable, Guests must keep their heads against the headrests and hands, arms, legs and feet down and inside ride vehicle. Children must be supervised at all times.
- Guests with casts or braces may be restricted from riding certain rides where the cast or brace may present a hazard to the Guest or other riders. If a cast is permitted on a ride, the cast must fit comfortably within the ride vehicle and not interfere with the required riding position or function of the restraint, if applicable.
- Hearing devices and other electronic devices may be damaged by water on water rides. Please take necessary precautions to protect these items. Due to the fact that many rides vibrate, Guests should take necessary precautions to protect hearing devices and eyeglasses on all rides.
- Guests must secure or remove artificial limbs before boarding to ensure everyone's safety. Please be advised if a Guest has two prosthetic legs which are removed for safety reasons, height restrictions could prevent the Guest from riding. Please check individual ride listings for any additional restrictions.
- Height requirements are posted at each ride. All Guests, including those using wheelchairs, must meet the height requirement. Guests may be officially measured at the Height Measurement Station in Holiday World or Splashin' Safari (during water park operating hours) to receive an appropriate wristband. St. Nick's Rentals in the Christmas section is available when the Height Measurement Station in Holiday World is closed and Splashin' Safari Guest Relations is available when the Height Measurement Station in Splashin' Safari is closed.
- Unless otherwise indicated, one Guest may not ride on another Guest's lap.

Every attraction entrance lists rider requirements including height, minimum extremities, and special safety instructions. Holiday World & Splashin' Safari use the following terms:

Supervising Companion: defined as any Guest who is at least 16 years of age and meets the rider requirements to ride alone. Supervising companions must generally help the Guest while loading and unloading the attraction, assist in maintaining postural control while the attraction is in motion, and assist the Guest down stairs, walkways, or steeply inclined ramps in the event of a ride evacuation.

Hand-held Infant: defined as child who is unable to walk to the attraction independently or maintain independent seated postural control. Also called "lap baby."

Functioning Arm: Arm with remnant to the elbow and the ability to grip or brace.

Functioning Hand: Arm with an elbow and a hand. Hand must have the ability to grip and brace. A prosthetic may be used unless otherwise stated.

Leg: Leg with a knee and remnant to the ankle. A prosthetic may be used unless otherwise stated.

Leg Remnant: Leg remnant at or below the knee unless otherwise defined at the ride.

Restraint Systems and Rider Requirements

All passenger restraint systems, including lap bars, shoulder harnesses, safety belts and seat belts, must be positioned and fastened properly for Guests to ride.

Due to rider restraint system requirements, larger Guests (in terms of height and/or weight) or Guests with

atypical body proportions may not be accommodated on some of our rides. Maximum weight limits are posted at many Splashin' Safari attractions and in this Guide.

Test seats are available at the Raven, Legend, Voyage, Thunderbird and Raging Rapids. On other rides, Guests may go up the ride's exit to ensure restraints fit properly prior to waiting in line.

State of Indiana Patron Responsibility

Indiana Administrative Code Title 685 Section 1-2-4 requires the following of amusement device patrons:

- Patrons have a duty to not participate in or on any amusement ride, device or attraction when under the influence of drugs or alcohol.
- Patrons have a duty to properly use all ride or device safety equipment provided.

Oxygen Tanks on Rides and Slides

To ensure everyone's safety, oxygen tanks may only be taken on the rides listed below in Holiday World, with the following conditions:

Children Rides: Under 54"

Comet's Rockets: Guest should sit in the front seat and put the oxygen on the floor of the rocket; ensure the tank will not tip.

Dancer's Fish: Put oxygen on the floor of the fish; ensure the tank will not tip.

Tippecanoes: Put oxygen in the canoe; ensure the tank will not tip.

Prancer's Merry-Go-Round: Oxygen tank must be in a backpack on the rider or an adult standing by the rider.

Family Rides

Doggone Trail, Holidog Express, Gobbler Getaway, and Lewis & Clark Trail: Put oxygen on the floor or seat; ensure the tank will not tip.

Magic Waters: Guests may run through the water with an oxygen tank in a backpack on their back.

Rudolph's Round-Up: Put oxygen on the floor of the sleigh; ensure the tank will not tip.

Star Spangled Carousel: Oxygen tank must be in a backpack on either the rider or an adult standing by the rider. If Guest prefers to sit in a chariot, place oxygen on the floor or seat, ensuring the tank will not tip.

Oxygen tanks are not permitted on any of the water slides but are permitted on the following attractions in Splashin' Safari: The Wave, Bahari, Bahari River, and the pool areas of Safari Sam's SplashLand, Kima Bay and Monsoon Lagoon. Oxygen tanks must be carried in a backpack on the Guest.

Service Animals

Trained service animals are welcome in Holiday World & Splashin' Safari. Under the ADA, a service animal means any dog (or miniature horse in some cases) that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Comfort animals, emotional support animals, or therapy animals are not service animals according to ADA regulations and these animals are not permitted in the park. For safety reasons, service animals are permitted on only the following rides, sitting with the Guest but on the floor of the ride or ride unit:

- **Doggone Trail**
- **Holidog Express**

- **Lewis & Clark Trail**
- **Parking Lot Trams**
- **Prancer's Merry-Go-Round**
- **Star Spangled Carousel**

If a Guest chooses to ride a ride not listed above, the service animal must be left with someone in their party who is not riding. Park Employees are not allowed to look after service animals. Service animals are welcome in Splashin' Safari, but are not permitted in the water.

Guests are responsible for cleaning up service animal waste and for controlling the service animal's behavior. Service animal relief areas are located throughout the park; see Park Map for details.

Show Venue Information

Reserved seating for Guests using wheelchairs and at least one companion is available at each show venue. Seating is available on a first-come, first-serve basis. Other members of the party may need to find seating nearby. Service animals are welcome in all show venues. Please refer to a show schedule for daily show times.

Assisted listening devices and show scripts are available upon request. Please visit Guest Relations or speak to a theater Host or Hostess for more information.

Santa's Storytime Theater

Santa's Storytime Theater is an outdoor venue located in the Christmas section next to the Skeeball Arcade and across from Kringle's Kafé. The theater has uncovered bleacher-style stadium seating. Reserved seating is available near the rear of the theater.

Hoosier Celebration Theater

The Hoosier Celebration Theater is an outdoor venue located in the Fourth of July section across from the Sweet Stuff food stand. The theater has covered bleacher-style stadium seating. Reserved seating is available near the front of the theater.

High Dive Theater

The High Dive Theater is an outdoor venue located in the Halloween section near The Raven roller coaster. The theater has uncovered bleacher-style stadium seating. Reserved seating is available near the rear of the theater.

Fun and Safety Symbols

The Fun and Safety Symbols shown at the bottom of each page have been designed to assist Guests in selecting rides best suited to their physical condition. These symbols are posted at the rides (usually at the line entrances) and indicate certain physical conditions that may be aggravated or affected by the ride.

Questions or Comments? Send emails to fun@holidayworld.com or call 1-877-463-2645.

CHRISTMAS SECTION: RUDOLPH'S REINDEER RANCH

Comet's Rockets – C, E (please note symbols below) - A gentle children's ride that elevates and rotates slowly in a circle. Mild Thrill Ride.

Height Requirement: Must not exceed 54" tall to ride. Hand-held infants are not permitted.

Physical Requirement: At minimum, Guests must have sufficient leg remnants for the restraint systems to work properly and must be able to maintain an upright position throughout the ride.

Transfer Requirement: Ambulatory – Must transfer from wheelchair.

Dancer's Fish – C, E (please note symbols below) - A gentle children's ride that goes up and down and rotates slowly in a circle. Mild Thrill Ride.

Height Requirement: Must not exceed 54" tall to ride. Hand-held infants are not permitted.

Physical Requirement: At minimum, Guests must have sufficient leg remnants for the restraint systems to work properly and must be able to maintain an upright position throughout the ride.

Transfer Requirement: Ambulatory – Must transfer from wheelchair.

Dasher's Seahorses – B, C, E (please note symbols below) - A children's carousel ride featuring seahorses that rotate in a circle. Mild Thrill Ride.

Height Requirement: Must not exceed 54" tall to ride. Hand-held infants are not permitted.

Physical Requirement: At minimum, Guests must have at least one functioning hand and sufficient leg remnants to straddle the seat in order to ride. Guests must have the ability to sit upright and maintain control of upper torso, head, and neck to ride.

Casts: Guests wearing neck braces or forearm casts on both arms may not ride.

Transfer Requirement: Ambulatory – Must transfer from wheelchair.

Prancer's Merry-Go-Round – C, E (please note symbols below) - A children's carousel ride featuring horses that move up and down. Mild Thrill Ride.

Height Requirement: Must not exceed 54" tall to ride. Guests over 54" tall must be accompanied by a Guest under 54" tall and stand next to the accompanying Guest while they ride. Hand-held infants are not permitted.

Physical Requirement: At minimum, Guests must have at least one functioning hand and sufficient leg remnants to straddle the seat in order to ride. Guests must have the ability to sit upright and maintain control of upper torso, head, and neck to ride.

Casts: Guests with forearm casts on both arms must be accompanied by a Supervising Companion (at least 16 years of age) to ride.

Transfer Requirement: Ambulatory – Must transfer from wheelchair.

Reindeer Games – A, B, C, D, E, F (please note symbols below) - A family ride that bounces several times up and down a three-story tower—a miniature version of Liberty Launch. Moderate Thrill Ride.

Height Requirement: Must be at least 42" tall to ride.

Physical Requirement: At minimum, Guests must have at least one functioning arm and sufficient leg remnants for the restraint systems to work properly.

Casts: Guests wearing neck braces, or full-leg casts that cover the knee may not ride. Please ensure prosthetics are secure before riding.

Description of Seat and Safety Restraints: Shoulder harness.

Transfer Requirement: Ambulatory – Must transfer from wheelchair.

Rudolph's Round-Up – B, C, E (please note symbols below) - A gentle children's spinning ride that allows riders to raise and lower their own sleigh as the entire ride rotates. Mild Thrill Ride.

Height Requirement: Must be at least 36" tall and must not exceed 54" tall to ride.

Physical Requirement: At minimum, Guests must have at least one functioning arm and one leg, or one functioning arm and two leg remnants at or below the knee.

Braces: Guests wearing neck braces may not ride.

Transfer Requirement: Ambulatory – Must transfer from wheelchair.

HALLOWEEN SECTION

Frightful Falls – A, B, C, D, E, F, G, H (please note symbols below) - A moderate flume ride with turns and a 35-foot drop. You will get wet on this ride! The ride includes a trip through a dark tunnel. Moderate Thrill Ride.

Height Requirement: Must be at least 36" tall to ride. Guests between 36" and 48" tall must be accompanied by a Supervising Companion (at least 16 years of age). Must be at least 48" tall to ride alone.

Physical Requirement: At minimum, Guests must have at least one functioning arm and one leg, or one functioning arm and two leg remnants at or below the knee. Guests must transfer in and out of wet boats on a moving conveyor, including stepping down into a boat, during the loading process. Please advise the Ride Operator if the moving conveyor needs to be stopped for passenger loading or unloading.

Casts: Guests wearing neck braces, forearm casts on both arms, or full-leg casts that cover the knee may not ride.

Transfer Requirement: Ambulatory – Must transfer from wheelchair.

HallowSwings – A, B, C, D, E, F (please note symbols below) - A moderate spinning ride that travels in a circle while riders sit in a swing. Guests should be prepared for circular motion and heights up to 45 feet. Moderate Thrill Ride.

Height Requirement: Must be at least 48" tall to ride.

Physical Requirement: At minimum, Guests must have at least one functioning arm and sufficient leg remnants for the restraint systems to work properly.

Casts: Guests wearing neck braces, forearm casts on both arms, or full-leg casts that cover the knee may not ride. Please ensure prosthetics are secure before riding.

Description of Seat and Safety Restraints: There are two different seat sizes measuring 15" and 19" across; each seat has a lap bar and safety chain.

Transfer Requirement: Ambulatory – Must transfer from wheelchair.

Legend – A, B, C, D, E, F, G (please note symbols below) - An intense high-speed wooden roller coaster with steep drops, banked turns, dark tunnels and sudden stops. High Thrill Ride.

Height Requirement: Must be at least 48" tall to ride.

Physical Requirement: At minimum, Guests must have at least one functioning arm, one leg, and one leg remnant at or below the knee.

Casts: Guests wearing neck braces, forearm casts on both arms, or full-leg casts that cover the knee may not ride.

Description of Seat and Safety Restraints: Bench seats have a seat divider; base of each seat is 15 inches across. Each seat has an individual seat belt, which encircles a maximum of 64 inches when fully extended (the ends attach in the back corners); there's also an individual lap bar that pulls down and must be latched. There is a test seat available at the entrance to The Legend.

Transfer Requirement: Transfer Device – There is a transfer device available to assist in transferring from a wheelchair onto the ride.

Raven – A, B, C, D, E, F, G (please note symbols below) - An intense high-speed wooden roller coaster with steep drops, banked turns, a dark tunnel, and sudden stops. High Thrill Ride.

Height Requirement: Must be at least 48" tall to ride.

Physical Requirement: At minimum, Guests must have at least one functioning arm, one leg, and one leg remnant at or below the knee.

Casts: Guests wearing neck braces, forearm casts on both arms, or full-leg casts that cover the knee may not ride.

Description of Seat and Safety Restraints: Bench seats have a seat divider; base of each seat is 15 inches across. Each seat has an individual seat belt, which encircles a maximum of 62 inches when fully extended (the ends attach in the back corners); there's also an individual lap bar that pulls down and must be latched. There is a test seat available at the entrance to The Raven.

Transfer Requirement: Transfer Device – There is a transfer device available to assist in transferring from a wheelchair onto the ride.

Scarecrow Scrambler – A, B, C, D, E, F (please note symbols below) - A fast-moving scrambler ride with cars that turn around a rotating base. Moderate Thrill Ride.

Height Requirement: Must be at least 36" tall to ride. Guests between 36" and 48" tall must be accompanied by a Supervising Companion (at least 16 years of age). Must be at least 48" tall to ride alone.

Physical Requirement: At minimum, Guests must have at least one functioning hand and one leg, or one functioning hand and two leg remnants at or below the knee. Guests lacking at least one functioning hand may ride with at least one functioning arm if accompanied by a Supervising Companion (at least 16 years of age). Adults should sit on the cushioned side of the car because weight will shift during the ride.

Casts: Guests wearing neck braces or forearm casts on both arms may not ride.

Description of Seat and Safety Restraints: Each seat has a shared seat belt and lap bar that is attached to the door.

Transfer Requirement: Ambulatory – Must transfer from wheelchair.

FOURTH OF JULY SECTION

Eagles Flight – A, B, C, D, E, F (please note symbols below) - A moderate spinning ride with rider-controlled side-to-side and up-and-down motion. Seat-belt extenders are available. Moderate Thrill Ride.

Height Requirement: Must be at least 36" tall to ride. Guests between 36" and 42" tall must be accompanied by a Supervising Companion (at least 16 years of age). Must be at least 42" tall to ride alone.

Physical Requirement: At minimum, Guests must have at least one functioning arm and one leg, or one functioning arm and two leg remnants at or below the knee.

Casts: Guests wearing neck braces or forearm casts on both arms may not ride.

Transfer Requirement: Ambulatory – Must transfer from wheelchair.

Holidog Express – C (please note symbols below) - A gentle family train ride that travels along a path featuring scenic elements and a tunnel. Mild Thrill Ride.

Height Requirement: Guests under 42" tall must be accompanied by a Supervising Companion (at least 16 years of age). Hand-held infants are permitted.

Physical Requirement: Guests must be able to maintain an upright position throughout the ride. Guests unable to maintain an upright position must be accompanied by a Supervising Companion (at least 16 years of age).

Casts: Guests with forearm casts on both arms must be accompanied by a Supervising Companion (at least 16 years of age) to ride.

Transfer Requirement: Ambulatory – Must transfer from wheelchair.

Lewis & Clark Trail – B, C, D (please note symbols below) - A family car ride that allows drivers to move around a guided track. Mild Thrill Ride.

Height Requirement: Guests under 42" tall must be accompanied by a Supervising Companion (at least 16 years of age). Hand-held infants are not permitted. If the driver is less than 42" tall, the front seat passenger should be tall enough to help steer and push the foot pedal without either rider standing.

Physical Requirement: At minimum, Guests must have at least one functioning arm, one leg, and the ability to use the pedal. Guests lacking these requirements must be accompanied by a Supervising Companion (at least 16 years of age). Guests accompanied by a Supervising Companion (at least 16 years of age) must be able to maintain an upright position throughout the ride.

Casts: Guests wearing neck braces may not ride. Guests with forearm casts on both arms must be accompanied by a Supervising Companion (at least 16 years of age) to ride.

Transfer Requirement: Ambulatory – Must transfer from wheelchair.

Liberty Launch – A, B, C, D, E, F, G (please note symbols below) - A fast-moving, up-and-down launching and freefall ride. High Thrill Ride.

Height Requirement: Must be at least 48" tall to ride.

Physical Requirement: At minimum, Guests must have at least one functioning arm and sufficient leg remnants for the restraint systems to work properly.

Casts: Guests wearing neck braces, full-arm casts that cover the elbow, or full-leg casts that cover the knee may not ride. Please ensure prosthetics are secure before riding.

Description of Seat and Safety Restraints: Shoulder harness and safety belt. Seat measures approximately 14" across.

Transfer Requirement: Ambulatory – Must transfer from wheelchair.

Raging Rapids – A, B, C, D, E, F (please note symbols below) - A turbulent river rapids ride with gradual drops and turns. You will get wet on this ride! Guests may be assigned specific seats on the boat, as weight must be balanced for safety. Moderate Thrill Ride.

Height Requirement: Must be at least 36" tall to ride. Guests between 36" and 48" tall must be accompanied by a Supervising Companion (at least 16 years of age). Must be at least 48" tall to ride alone.

Physical Requirement: At minimum, Guests must have at least one functioning arm and one leg, or one functioning arm and two leg remnants at or below the knee. Guests must transfer in and out of wet boats on a moving conveyor, including stepping down into a boat during the loading process. Please advise the Ride Operator if the moving conveyor needs to be stopped for passenger loading or unloading.

Casts: Guests wearing neck braces or forearm casts on both arms may not ride.

Description of Seat and Safety Restraints: Seat belts encircle a maximum of 57 inches when fully extended. There is a test seat available at the entrance of Raging Rapids.

Transfer Requirement: Ambulatory – Must transfer from wheelchair.

Revolution – A, B, C, D, E, F, G (please note symbols below) - A fast-moving spinning ride that elevates while riders stand in place. Moderate Thrill Ride.

Height Requirement: Must be at least 42" tall to ride.

Physical Requirement: At minimum, Guests must have at least two functioning arms and two legs, or two functioning hands and one leg.

Casts: Guests wearing neck braces, full-arm casts that cover the elbow, or full-leg casts that cover the knee may not ride.

Transfer Requirement: Ambulatory – Must transfer from wheelchair.

Rough Riders – A, B, C, D, E, F (please note symbols below) - A moderate bumper car ride that allows drivers to bump into other cars. Moderate Thrill Ride.

Height/Weight Requirement: Must be at least 42" tall to ride. Guests between 42" and 48" tall must be accompanied by a Supervising Companion (at least 16 years of age). Must be at least 48" tall to ride alone.

Physical Requirement: At minimum, Guests must have at least one functioning arm, one leg, and the ability to use the pedal. Guests lacking the ability to use the pedal must be accompanied by a Supervising Companion (at least 16 years of age).

Casts: Guests wearing neck braces or forearm casts on both arms may not ride.

Transfer Requirement: Ambulatory – Must transfer from wheelchair.

Star Spangled Carousel – C, E (please note symbols below) – A family carousel ride featuring animals that move up and down as well as stationary chariots. Mild Thrill Ride.

Height/Weight Requirement: Guests under 42" tall must be accompanied by a Supervising Companion (at least 16 years of age). Supervising Companions may stand next to a Guest who needs assistance.

Hand-held infants are permitted in a chariot.

Physical Requirement for Riding Carousel Animals: At minimum, Guests must have at least one functioning hand and sufficient leg remnants to straddle the seat in order to ride an animal. Guests lacking these requirements must be accompanied by a Supervising Companion (at least 16 years of age) and ride in a chariot. Guests must have the ability to sit upright and maintain control of upper torso, head, and neck to ride an animal or be accompanied by a Supervising Companion (at least 16 years of age) and ride in a chariot.

Casts: Guests with forearm casts on both arms must be accompanied by a Supervising Companion (at least 16 years of age) to ride.

Transfer Requirement: Ambulatory – Must transfer from wheelchair.

Tippecanoes – C (please note symbols below) - A gentle children's boat ride that travels slowly through a canal. Mild Thrill Ride.

Height Requirement: Must not exceed 54" tall to ride. Hand-held infants are not permitted.

Physical Requirement: Guests must be able to maintain an upright position throughout the ride. Since there are no seat belts, children must remain seated until the Ride Operator has directed them to unload.

Transfer Requirement: Ambulatory – Must transfer from wheelchair.

HOLIDOG'S FUNTOWN

Doggone Trail – B, C, D (please note symbols below) - A gentle family ride that travels along a path. Mild Thrill Ride.

Height Requirement: Guests under 42" tall must be accompanied by a Supervising Companion (at least 16 years of age). Hand-held infants are not permitted.

Physical Requirement: At minimum, Guests must have at least one functioning arm and one leg, or be accompanied by a Supervising Companion (at least 16 years of age). Guests accompanied by a Supervising Companion (at least 16 years of age) must be able to maintain an upright position throughout the ride.

Casts: Guests with forearm casts on both arms must be accompanied by a Supervising Companion (at least 16 years of age) to ride.

Transfer Requirement: Ambulatory – Must transfer from wheelchair.

Holidog's Treehouse – B, C (please note symbols below) - This is a three-story interactive play structure with ladders and slides. Parents are encouraged to accompany their children and provide assistance. Mild Attraction.

Attraction Access: There is not a specific entrance or exit.

Height Requirement: Must not exceed 54" tall. Guests over 54" tall must be accompanied by a Guest under 54" tall.

Physical Requirement: Guests must be able to climb or pull themselves up along the various passageways.

Howler – A, B, C, D, E, F (please note symbols below) - A family roller coaster with gentle drops and quick turns. Moderate Thrill Ride

Height Requirement: Must be at least 36" tall to ride. Guests between 36" and 42" tall must be accompanied by a Supervising Companion (at least 16 years of age). Must be at least 42" tall to ride alone.

Physical Requirement: At minimum, Guests must have at least one functioning hand and one leg. Guests lacking at least one functioning hand may ride with at least one functioning arm if accompanied by a Supervising Companion (at least 16 years of age).

Casts: Guests wearing neck braces, forearm casts on both arms, or full-leg casts that cover the knee may not ride.

Description of Seat and Safety Restraints: Shared lap bar.

Transfer Requirement: Ambulatory – Must transfer from wheelchair.

Just for Pups – This is a toddler’s version of Holidog’s Treehouse, featuring slides for the little ones. Mild Attraction.

Attraction Access: There is not a specific entrance or exit.

Height Requirement: Must not exceed 54" tall. Guests over 54" tall must be accompanied by a Guest under 54" tall.

Kitty’s Tea Party – A, B, C, D, E, F (please note symbols below) - A family spinning ride that allows riders to spin their own tea cups while the entire ride rotates. Mild Thrill Ride.

Height Requirement: Guests under 36" tall must be accompanied by a Supervising Companion (at least 16 years of age). Hand-held infants are not permitted.

Physical Requirement: At minimum, Guests must have at least one functioning arm and one leg, or one functioning arm and two leg remnants at or below the knee.

Casts: Guests wearing neck braces may not ride. Guests with forearm casts on both arms must be accompanied by a Supervising Companion (at least 16 years of age) to ride.

Transfer Requirement: Ambulatory – Must transfer from wheelchair.

Magic Waters – An interactive water “sprayground” with a series of water geysers shooting up out of the ground. Children and accompanying adults are invited to take off their shoes and play in the water. Children in diapers must wear swim diapers. Mild Attraction.

Height Requirement: Must not exceed 54" tall. Guests over 54" tall must be accompanied by a Guest under 54" tall.

THANKSGIVING SECTION

Crow’s Nest – A, B, C, D, E, F, G (please note symbols below) - A moderate spinning ride that travels in a circle and elevates up and down a tower while riders sit in a swing. Moderate Thrill Ride.

Height Requirement: Must be at least 42" tall to ride. Guests between 42" and 48" tall must be accompanied by a Supervising Companion (at least 16 years of age). Must be at least 48" tall to ride alone.

Physical Requirements: At minimum, Guests must have at least one functioning arm and sufficient leg remnants for the restraint systems to work properly.

Casts: Guests wearing neck braces, forearm casts on both arms, or full-leg casts that cover the knee may not ride. Please ensure prosthetics are secure before riding.

Description of Seat and Safety Restraints: Each swing contains two seats and riders are restrained with a shared lap bar and individual safety belt.

Transfer Requirement: Ambulatory – Must transfer from wheelchair.

Gobbler Getaway – C, H (please note symbols below) - An interactive family dark ride with special effects that travels on an indoor track. The three-minute ride features lighting effects including black lights, strobe lights, and mirror-ball projections. Mild Thrill Ride.

Height Requirement: Guests under 48" tall must be accompanied by a Supervising Companion (at least 16 years of age). Hand-held infants are not permitted.

Physical Requirement: At minimum, Guests must have at least one functioning arm and one leg, or be accompanied by a Supervising Companion (at least 16 years of age). Guests accompanied by a Supervising Companion (at least 16 years of age) must be able to maintain an upright position throughout the ride.

Casts: Guests with forearm casts on both arms must be accompanied by a Supervising Companion (at least 16 years of age) to ride.

Description of Seat and Safety Restraints: Each row has a shared lap bar.

Transfer Requirement: Transfer Seat – There is a seat built into the ride to assist in transferring from a wheelchair onto the ride.

Mayflower – A, B, C, D, E, F, G (please note symbols below) – A large swinging ship ride that travels forward and backward in a pendulum-like motion. High Thrill Ride.

Height Requirement: Must be at least 42" tall to ride. Guests between 42" and 48" tall must be accompanied by a Supervising Companion (at least 16 years of age). Must be at least 48" tall to ride alone.

Physical Requirement: At minimum, Guests must have at least one functioning arm and one leg, or one functioning arm and two leg remnants at or below the knee.

Casts: Guests wearing neck braces or forearm casts on both arms may not ride.

Description of Seat and Safety Restraints: Each row contains a bench seat with a shared lap bar.

Transfer Requirement: Transfer Seat – There is a seat built into the ride to assist in transferring from a wheelchair onto the ride.

Thunderbird – A, B, C, D, E, F, G, H (please note symbols below) - An intense, high-speed wing roller coaster that launches to 60mph in 3.5 seconds. Ride includes multiple inversions, steep drops, high-speed turns, and sudden stops. High Thrill Ride.

Height Requirement: Must be at least 52" tall and must not exceed 78" tall to ride.

Physical Requirement: At minimum, Guests must have at least one functioning hand and two legs. Guests lacking both legs may ride with at least two functioning hands and two leg remnants at or below the knee. Thunderbird has a full-body harness available for Guests who do not meet this requirement. In order to ride Thunderbird with the full-body harness, Guests must have, at minimum, two lower-leg remnants to the knee.

Casts: Guests wearing neck braces or casts are not permitted on this ride.

Description of Seat and Safety Restraints: Shoulder harness with a safety belt. Longer safety belts are available in rows 2 and 3. There is a test seat available at the entrance to Thunderbird.

Transfer Requirement: Transfer Device – There is a transfer device available to assist in transferring from a wheelchair onto the ride.

Turkey Whirl – A, B, C, D, E, F (please note symbols below) - A moderate spinning ride with individual cars that spin while the entire ride rotates. Moderate Thrill Ride.

Height Requirement: Must be at least 36" tall to ride. Guests between 36" and 48" tall must be accompanied by a Supervising Companion (at least 16 years of age). Must be at least 48" tall to ride alone.

Physical Requirement: At minimum, Guests must have at least one functioning hand and one leg, or one functioning hand and 2 leg remnants at or below the knee. Guests lacking at least one functioning hand may ride with at least one functioning arm if accompanied by a Supervising Companion (at least 16 years of age).

Casts: Guests wearing neck braces, full-arm casts that cover the elbow, or forearm casts on both arms may not ride.

Description of Seat and Safety Restraints: Each car has a shared lap bar.

Transfer Requirement: Ambulatory – Must transfer from wheelchair.

Voyage – A, B, C, D, E, F, G, H (please note symbols below) - An intense high-speed wooden roller coaster with steep drops, sharply-banked turns, dark tunnels and sudden stops. This wooden roller coaster features three drops of more than 100 feet, extreme twists and turns, with strong forces from all directions. There are eight dark moments in underground tunnels and three points at which the track is perpendicular to the ground. High Thrill Ride.

Height Requirement: Must be at least 48" tall to ride.

Physical Requirement: At minimum, Guests must have at least one functioning arm, one leg, and one leg remnant at or below the knee.

Casts: Guests wearing neck braces, forearm casts on both arms, or full-leg casts that cover the knee may not ride.

Description of Seat & Safety Restraints: Bench seats have a seat divider. Base of each seat is 15 inches across. Each seat has an individual seat belt, which encircles a maximum of 62 inches when fully extended (the ends attach in the back corners); there's also an individual lap bar that pulls down and must be latched. There is a test seat available at the entrance to The Voyage.

Transfer Requirement: Transfer Device – There is a transfer device available to assist in transferring from a wheelchair onto the ride.

SPLASHIN' SAFARI WATER PARK

The water attractions in Splashin' Safari are staffed by certified Lifeguards trained through Ellis & Associates using the International Lifeguard Training Program. Please do not hesitate to ask them questions or seek their assistance.

To participate at Splashin' Safari, swimwear or shorts and shirts may be worn and must be modest in design. Revealing or thong swimsuits are not permitted. Diaper-dependent Guests must wear swim diapers. Swim diapers are available for sale in Safari Outpost in the Splashin' Safari plaza as well as most Holiday World gift shops.

Complimentary life jackets are available at both The Wave and Bahari Wave. "Infant" life jacket size accommodates Guests up to 30lbs., "Child" size accommodates Guests between 30lbs. and 50lbs., "Youth" size accommodates Guests between 50lbs. and 90lbs., and "Adult" size accommodates Guests over 90lbs. Adult life jackets accommodate a chest size between 30" and 52".

Wildbeest and Mammoth are included on the Ride Boarding Pass. It does not apply to the water slides, though, because their "exits" are the bottom of the slides. There are a number of water attractions— The Wave, Bahari Wave, Bahari River, Monsoon Lagoon, Kima Bay, Hyena Springs, and Safari Sam's SplashLand—which require little or no wait.

Bahari River – B, C (please note symbols below) – A flowing river where riders swim, wade, or float in tubes along its course. Riders will experience currents and may encounter water sprayers, bubble jets, waterfalls, waves, and splashing. Pool depth up to 28 inches. Mild Water Park Attraction.

Attractions Access: Zero-depth entry and exit to the pool.

Physical Requirement: Guests must be able to position themselves in or on an inner tube if they choose to use them. An accompanying Guest may walk around the river or ride in an inner tube to assist a Guest. Guests must be able to upright themselves in a strong current in the pool if unaccompanied.

Life Jackets: Weak or non-swimmers are encouraged to wear a life jacket.

Bahari – A, B, C, D, E, F (please note symbols below) – A pool with waves, strong currents, and water sprayers. Pool depth ranges from a zero depth entry to 6 feet deep. These waves are bigger and stronger than the waves at The Wave. Moderate Water Park Attraction.

Attractions Access: Zero-depth entry and exit to the pool.

Physical Requirement: Guests must be able to sit upright in the pool. Guests in a wheelchair may ask a Lifeguard for an inner tube to use. Guests must be able to upright themselves in a strong current in the pool. Please note that the Bahari has bigger and stronger waves than those at The Wave.

Life Jackets: Weak or non-swimmers are encouraged to wear a life jacket.

Bakuli – A, B, C, D, E, F, G (please note symbols below) – An exciting tube slide connected to a bowl-like flume; rider experiences enclosed and dark spaces, high-speeds, steep drops with free-falling sensations,

multi-directional forces, and rotating motion. The ride ends in a splash pool up to 3 feet deep. Moderate Water Park Attraction.

Attractions Access: Guests must be able to climb the stairs of the slide tower and enter the tube with or without assistance.

Height Requirement: Must be at least 42" tall to ride. Guests between 42" and 48" tall must be accompanied by a Supervising Companion (at least 16 years of age). Must be at least 48" tall to ride alone.

Weight Requirement: The maximum combined weight of all riders must not exceed 700lbs. per 4-passenger inner tube; minimum of 2 and maximum of 4 riders per inner tube.

Physical Requirement: At minimum, Guest must have two functioning hands or sufficient remnants to grasp one handle on the tube, along with sufficient leg remnants to maintain the rider position. Guests must have the ability to sit upright in the tube and maintain control of upper torso, head, and neck. Physical and cognitive ability is required to maintain the riding position. Guests must be able to upright themselves in a strong current and exit the tube and pool with or without assistance.

Casts/Braces/Prosthetics: Guests wearing neck braces, full arm casts that cover the elbow, or full leg casts that cover the knee may not ride. Prosthetics must be secure and any sharp edges covered.

Hyena Falls – A, B, C, D, E, F, G (please note symbols below) – A series of four thrilling tube slides; riders travel on a straight and/or winding flume and experience enclosed and dark spaces, high-speeds, steep drops with free-falling sensations, and multi-directional forces. Riders will decelerate in a splash pool up to 3½ feet deep. High Thrill Water Park Attraction.

Attractions Access: Guests must be able to climb the stairs of the slide tower and enter the tube with or without assistance.

Height Requirement: Must be at least 42" tall to ride. Guests between 42" and 48" tall must be accompanied by a Supervising Companion (at least 16 years of age). Must be at least 48" tall to ride alone.

Weight Requirement: The maximum combined weight of all riders must not exceed 400lbs. in a double tube. The weight of each rider must not exceed 250lbs.

Physical Requirement: At minimum, Guest must have two functioning hands or sufficient remnants to grasp one handle on the tube, along with sufficient leg remnants to maintain the rider position. Guests must have the ability to sit upright in the tube and maintain control of upper torso, head, and neck. Physical and cognitive ability is required to maintain the riding position. Guests must be able to upright themselves in a strong current and exit the tube and pool with or without assistance. Guests should notify an Attendant at the top of the slide if assistance will be needed exiting the splash pool at the bottom.

Life Jackets: Weak or non-swimmers are encouraged to wear a life jacket.

Casts/Braces/Prosthetics: Guests wearing neck braces, full arm casts that cover the elbow, or full leg casts that cover the knee may not ride. Prosthetics must be secure and any sharp edges covered.

Hyena Springs – An interactive water "sprayground" with a series of water geysers shooting up out of the ground. Children and accompanying adults are invited to play in the water. Children in diapers must wear swim diapers. Mild Water Park Attraction.

Height Requirement: Must not exceed 54" tall. Guests over 54" tall must be accompanied by a Guest under 54" tall.

Jungle Racer – A, B, C, D, E, F, G (please note symbols below) – An exciting ten-lane water flume; each rider slides downhill on a mat headfirst and decelerate in a run-out. Riders experience high-speeds, steep drops with free-falling sensations, and multi-directional forces. Moderate Water Park Attraction.

Attractions Access: Guests must be able to climb the stairs of the slide tower and lie down on the mat with or without assistance.

Height Requirement: Must be at least 42" tall to ride.

Physical Requirement: At minimum, Guests must have two functioning hands or sufficient remnants to grasp one handle on the mat, along with sufficient leg remnants to maintain the rider position. Guests must be able to position themselves head-first and stomach-down on the mat. Physical and cognitive ability is required to maintain the riding position. Guests must be able to sit upright in the slide run-out and exit with or without assistance.

Casts/Braces/Prosthetics: Guests wearing neck braces, full arm casts that cover the elbow, or full leg casts that cover the knee may not ride. Prosthetics must be secure and any sharp edges covered.

Kima Bay – B, C, D, (please note symbols below) – Water activity area with body slides and various water elements in a zero-depth spray deck. Features include tipping buckets, net climbs, and water splash and spray elements. Mild Water Park Attraction.

Attractions Access: In order to ride the slides, Guests must be able to climb the structure with or without assistance.

Height Requirement: Must be at least 36" tall to ride smaller slides (less than 8 feet above ground). Must be at least 42" tall to ride taller slides (more than 8 feet above ground).

Weight Requirement: The maximum weight per rider is 300lbs.

Physical Requirement: Guests must have the ability to sit upright on the slides and maintain control of upper torso, head, and neck. Guests must be able to sit upright in the slide run-out and exit with or without assistance. Expectant mothers should not ride the slides.

Casts/Braces/Prosthetics: Guests wearing neck braces, full arm casts that cover the elbow, or full leg casts that cover the knee may not ride the slides. Prosthetics must be secure and any sharp edges covered.

Mammoth – A, B, C, D, E, F, G (please note symbols below) – A thrilling water coaster experience. Riders sit in an inflatable raft and travel the path of a winding flume experiencing enclosed and dark spaces, high-speeds, steep inclines and drops with free-falling sensations, multi-directional forces, and rotating motion. High Thrill Water Park Attraction.

Attractions Access: Accessible entrance is the ride exit. Guests must be able to enter the raft with or without assistance.

Height Requirement: Must be at least 42" tall to ride. Guests between 42" and 48" tall must be accompanied by a Supervising Companion (at least 16 years of age). Must be at least 48" tall to ride alone.

Weight Requirement: The maximum combined weight of all riders must not exceed 1,050lbs. per raft. All riders will be weighed as a group prior to boarding.

Physical Requirement: At minimum, Guest must have two functioning hands or sufficient remnants to grasp both handles on the raft. Guests must have the ability to sit upright in the raft and maintain control of upper torso, head, and neck. Physical and cognitive ability is required to maintain the riding position. Guests must be able to exit the raft with or without assistance. The magnetic force created by the motors on this ride will not affect a pacemaker. Guests with heart conditions should not ride.

Casts/Braces/Prosthetics: Guests wearing neck braces, full arm casts that cover the elbow, or full leg casts that cover the knee may not ride. Prosthetics must be secure and any sharp edges covered.

Transfer Requirement: Ambulatory – Must transfer from wheelchair.

Monsoon Lagoon – B, C, D, (please note symbols below) – Activity area with body slides and various water elements in a zero-depth to 18" deep pool. Features include tipping buckets, net climbs, and water splash and spray elements. Mild Water Park Attraction.

Attractions Access: In order to ride the slides, Guests must be able to climb the structure with or without assistance. Zero-depth entry and exit to the pool.

Physical Requirement: Guests must have the ability to sit upright on the slides and maintain control of upper torso, head, and neck. Guests must be able to sit upright in the pool. Expectant mothers should not ride the slides.

Casts/Braces/Prosthetics: Guests wearing neck braces, full arm casts that cover the elbow, or full leg casts that cover the knee may not ride the slides. Prosthetics must be secure and any sharp edges covered.

Otorongo – A, B, C, D, E, F (please note symbols below) – A series of three thrilling tube slides; riders travel on a straight and/or winding flume and experience enclosed and dark spaces, high-speeds, steep drops with free-falling sensations, and multi-directional forces. Riders will decelerate in a splash pool up to 45" deep. High Thrill Water Park Attraction.

Attractions Access: Guests must be able to climb the stairs of the slide tower and enter the tube with or without assistance.

Height Requirement: Must be at least 42" tall to ride. Guests between 42" and 48" tall must be accompanied by a Supervising Companion (at least 16 years of age). Must be at least 48" tall to ride alone.

Weight Requirement: The maximum combined weight of all riders must not exceed 400lbs. in a double tube. The weight of each rider must not exceed 250lbs.

Physical Requirement: At minimum, Guest must have two functioning hands or sufficient remnants to grasp one handle on the tube, along with sufficient leg remnants to maintain the rider position. Guests must have the ability to sit upright in the tube and maintain control of upper torso, head, and neck. Physical and cognitive ability is required to maintain the riding position. Guests must be able to upright themselves in a strong current and exit the tube and pool with or without assistance. Guests should notify an Attendant at the top of the slide if assistance will be needed exiting the splash pool at the bottom.

Life Jackets: Weak or non-swimmers are encouraged to wear a life jacket.

Casts/Braces/Prosthetics: Guests wearing neck braces, full arm casts that cover the elbow, or full leg casts that cover the knee may not ride. Prosthetics must be secure and any sharp edges covered.

Safari Sam's SplashLand – B, C, D, (please note symbols below) – A children's activity area with body slides and various water elements in a zero-depth to 18"-deep pool. Features include water splash and spray elements. Mild Water Park Attraction.

Attractions Access: In order to ride the slides, Guests must be able to climb the stairs or ramp with or without assistance. Zero-depth entry and exit to the pool.

Height Requirement: Must not exceed 54" tall to ride the slides. Guests over 54" tall must be accompanied by a Guest under 54" tall.

Physical Requirement: Guests must have the ability to sit upright on the slides and maintain control of upper torso, head, and neck. Guests must be able to sit upright in the pool. Expectant mothers should not ride the slides.

Casts/Braces/Prosthetics: Guests wearing neck braces, full arm casts that cover the elbow, or full leg casts that cover the knee may not ride the slides. Prosthetics must be secure and any sharp edges covered.

The Wave – A, B, C, D, E, F (please note symbols below) – A pool with waves and strong currents. Pool depth ranges from a zero depth entry to 6 feet deep. These waves are not as big or strong as the waves at Bahari. Mild Water Park Attraction.

Attractions Access: Zero-depth entry and exit to the pool.

Physical Requirement: Guests must be able to sit upright in the pool. Guests in a wheelchair may ask a Lifeguard for an inner tube to use. Guests must be able to upright themselves in a strong current in the pool.

Life Jackets: Weak or non-swimmers are encouraged to wear a life jacket.

Watubee – A, B, C, D, E, F, G (please note symbols below) – A large and exciting flume with multi-person rafts that navigate down a slide. Riders experience high-speed turns, multi-directional forces, and both side-to-side motion and rotating motion. This ride ends in a splash pool up to 2½ feet deep. Moderate Water Park Attraction.

Attractions Access: Guests must be able to climb the stairs of the slide tower and enter the raft with or without assistance.

Height Requirement: Must be at least 36" tall to ride. Guests between 36" and 48" tall must be accompanied by a Supervising Companion (at least 16 years of age). Must be at least 48" tall to ride alone.

Weight Requirement: The maximum combined weight of all riders must not exceed 800lbs. per raft; minimum of 2 riders and maximum of 4 adults per raft.

Physical Requirement: At minimum, Guest must have two functioning hands or sufficient remnants to grasp one handle on the raft. Guests must have the ability to sit upright in the raft and maintain control of upper torso, head, and neck. Physical and cognitive ability is required to maintain the riding position. Guests must be able to upright themselves in a strong current and exit the raft and pool with or without assistance.

Casts/Braces/Prosthetics: Guests wearing neck braces, full arm casts that cover the elbow, or full leg casts that cover the knee may not ride. Prosthetics must be secure and any sharp edges covered.

Wilbebeest – A, B, C, D, E, F, G (please note symbols below) – A thrilling water coaster experience. Riders sit in an inflatable raft and travel the path of a winding flume experiencing enclosed and dark spaces, high-speeds, steep inclines and drops with free-falling sensations, and multi-directional forces. High Thrill Water Park Attraction.

Attractions Access: Accessible entrance is between the ride entrance and ride exit. Guests must be able to enter the raft with or without assistance.

Height Requirement: Must be at least 42" tall to ride. Guests between 42" and 48" tall must be accompanied by a Supervising Companion (at least 16 years of age). Must be at least 48" tall to ride alone.

Weight Requirement: The maximum combined weight of all riders must not exceed 800lbs. per raft.

Physical Requirement: At minimum, Guest must have two functioning hands or sufficient remnants to grasp one handle on the raft, along with sufficient leg remnants to maintain the rider position. Guests must have the ability to sit upright in the raft and maintain control of upper torso, head, and neck. Physical and cognitive ability is required to maintain the riding position. Guests must be able to exit the raft with or without assistance. The magnetic force created by the motors on this ride will not affect a pacemaker. Guests with heart conditions should not ride.

Casts/Braces/Prosthetics: Guests wearing neck braces, full arm casts that cover the elbow, or full leg casts that cover the knee may not ride. Prosthetics must be secure and any sharp edges covered.

Transfer Requirement: Ambulatory – Must transfer from wheelchair

Zinga – A, B, C, D, E, F, G (please note symbols below) – A thrilling tube slide where riders oscillate back and forth on a half-pipe. Riders experience enclosed and dark spaces, high-speeds, steep drops with free-falling sensations, multi-directional forces, and rotating motion. The ride ends in a splash pool up to 18 inches deep. High Thrill Water Park Attraction.

Attractions Access: Guests must be able to climb the stairs of the slide tower and enter the tube with or without assistance.

Height Requirement: Must be at least 42" tall to ride. Guests between 42" and 48" tall must be accompanied by a Supervising Companion (at least 16 years of age). Must be at least 48" tall to ride alone.

Weight Requirement: The maximum combined weight of all riders must not exceed 600lbs. per 4-passenger inner tube; minimum of 2 and maximum of 4 riders per inner tube. All riders will be weighed as a group prior to boarding.

Physical Requirement: At minimum, Guest must have two functioning hands or sufficient remnants to grasp one handle on the tube, along with sufficient leg remnants to maintain the rider position.
